This stunning golf course offers lush green mountain views from every angle with courses that follow the natural contours of the land featuring undulating hills, sand traps and a beautiful natural reservoir. But the course is not as tranquil as you might expect, with an abundance of natural waterfalls and streams, the air is filled with the sounds of cascading water.

Players will enjoy the challenges offered by the Katathong's narrow fairways but above all Katathong is a sanctuary for golfers who arrive to play golf, but leave with a deeper respect for nature.

For additional practice beyond the course, Katathong provides a covered 12 bay driving range to brush up on your game. The driving range and short game area is open daily for putting and chipping practice . The pro golf instructors at the academy are available for one-on-one tuition for players of all ages and abilities.
